Added value

With the mobile FlexxGuard modular safety railing system, you can easily secure hazardous areas on construction sites or in industrial plants and thus protect workers and visitors. The guardrails can be quickly and easily installed and secured on grating floors. Thanks to the flexible design, the FlexxGuard safety railing can be optimally adapted to requirements and thus guarantees the best possible protection.

A complete safety guardrail consists of at least:

- Telescopic guardrail: 1x or more
- Railing posts: 2x or more
- Safety gate: 1x or more (if access option required)

Advantages

- High level of safety
- Mobile application
- Quick and easy to assemble without tools
- Adaptable to various requirements
- Durable and low-maintenance

Assembly Variations

The FlexxGuard safety railing can be assembled in numerous variations. The components can be flexibly combined without tools, allowing hazards to be mitigated quickly and easily. Eye-catching design, thoughtful components, and high-quality materials ensure optimal protection.
