Transport dimensions (plus packaging) 368 x 98 x 53 mm, 0.72 kg	Business division MUNK Günzburger Steigtechnik	Order no. 041823		

Facts

- Live up to the increased requirements on work safety and provide for optimised non-slip protection, safe footing and a comfortable stance on our step ladders
- The step padding made of grooved plastic is clipped onto the step to cover the whole surface and is custom-fit; it can be removed again without damage to the ladder and leaving no residue
- For applications where all steps of the ladder may be used – for example, when used with an exit rail – an additional set of 3 clip-step paddings can be used to make the upper steps comfortable and slip-resistant

- The clip-step tread cover is applied to step ladders up to the maximum accessible step according to DIN EN 131 and thus functions as a visual check for the correct use of the ladder

Scope of supply

- Clip-step step padding: 5 x
- Assembly instructions: 1 x
