### Facts

- Safe, non-slip mounting - protects the horse's back and makes mounting easier
- 220 mm-deep aluminium treads offer the best grip in all weather conditions
- StepSecure step protection - provides additional protection on the front edge of the step-up aid and prevents the horse from unintentionally stepping on the steps, ideal for inexperienced horses

### Description

The rigid climbing aid offers the perfect combination of stability and comfort. Designed for riders and stable owners, it is the ideal support for safe mounting while saddling, grooming or riding. The non-slip aluminium chequered plates (R10) ensure stability and protect against slipping – even in damp conditions.

Advantages at a glance

- Particularly light and handy - easy to transport and ideal for mobile use anywhere in the riding stable or riding arenas
- Weatherproof construction for use in rain, snow and mud - reliable grip in all weather conditions
- Large upper standing area of 550 x 300 mm for a secure and comfortable hold when climbing up
- Non-slip plastic shoes ensure a firm footing on any surface and additional stability
- Wide, ergonomic treads offer stair-like comfort and maximum safety
- Maximum load: 150 kg
- Maximum safety: Robust aluminium construction with non-slip plastic feet for a firm hold on any surface.
- Ergonomic design: Comfortable step spacings and generous tread areas provide comfort and support gentle mounting, which relieves the horse's back.
- Flexibility: Various models with up to 5 steps offer the right solution for every situation, from everyday care to use in the riding arena.

#### Your added value

With the rigid climbing aid, you invest in safety and longevity. The space-saving design and sustainable production guarantee added value for your everyday stable life and your horse's health.

#### Scope of supply

- Ascent aid: 1 x
