

Order no.: 019350

Back guard for platform ladder

Specification

Suitable for Plattformleitern	Product type Zubehör	Length 548 mm	Width 567 mm	Material Aluminium
Transport dimensions (plus packaging) 641 x 598 x 141 mm, 1.8 kg	Business division MUNK Günzburger Steigtechnik	Order no. 019350		

Facts

- Effective all-round protection when working on the platform
- Can be retrofitted and sturdily bolted for a secure hold
- Sturdy screws for a secure hold
- Effective protection against falls and accidents at work
- Suitable for MUNK platform ladders 052083 as well as 050084-050090 and 051084-051090

Description

The retrofittable back guard rail significantly increases safety when working on MUNK platform ladders. Its robust, bolted construction ensures a secure hold and provides effective fall protection while standing on the platform – ideal for use on construction sites, during assembly work or in industrial environments.

Installation is quick and straightforward: all you need is a spanner and a hex key. No special tools are required. The guard rail can be dismantled again if necessary. It is durable, precisely fitted and compatible with all common MUNK platform ladders:

- Steckbar model: 052083
- Platform ladders: 050084–050090
- With castors and handrail: 051084–051090

A must-have for anyone who takes workplace safety seriously – especially in professional trades.

Scope of supply

- Aluminium bracket: 1 x
- Installation material: 1 x

Information on sustainability criteria

- Corporate certification: ISO 9001
- Corporate certification: ISO 14001
- Corporate certification: EN 1090
- Corporate certification: EcoVadis
- RoHS
- REACH
- The MUNK Group complies with a Code of Conduct
- The Supply Chain Act does not apply due to our size
- The materials used are listed in the technical specification
- Resource-saving production: own photovoltaic systems
- Energy-efficient consumption during production: LED lighting
- Repairability, durability and quality: 15-year warranty on series products made in Germany
- Recyclability: Our products are mostly made of aluminium, steel or wood and can be fed directly into the recycling process.
- Socially acceptable working conditions in production: fair wages, gender equality
- Economical and recyclable packaging: no use of polystyrene, predominantly use of wood and cardboard, small amounts of plastic
- No health hazards for the users
