Stationary de-icing system

Module types

1 2 3 4

Specification

Platform length 1.26 m	Platform width 850 mm	Platform height 3 m	Height 4.1 m	Total width 950 mm
Railing height 1.1 m	Transport dimensions (plus packaging) 3200 x 1350 x 1000 mm, 95 kg	Predecessor product 070501	Business division MUNK Günzburger Steigtechnik	Order no. 681232

Facts

- For the safe and quick removal of ice and snow loads from trucks and commercial vehicles. Also ideal for repairs to truck tarpaulins and superstructures.
- Maintenance-free design made of corrosion-resistant aluminium profiles and stainless steel connecting parts for stationary installation
- Individual total lengths and configurations possible thanks to efficient modular design
- Step and platform surfaces made of non-slip steel grating (R12) for all weather conditions. The hole pattern also prevents the accumulation of dirt, snow and water

- Convenient access to the walkway via 45° stairway with handrails on both sides and automatically closing safety door
- Railings on both sides with foot and knee boards ensure a high level of safety at work (height: 1,100 mm)
- Easy installation thanks to delivery in pre-assembled modules including assembly instructions
- The design takes account of DIN EN ISO 14122-2 and -3
- Maximum load: 1.5 kN/m2, step load 150 kg, total load 300 kg
- Production in compliance with European standards DIN EN ISO 14122 and DIN EN 1004
- This product is made to order and cannot be returned

Scope of supply

- Support frame: 1 x
- Garde-corps: 2 x
- Platform: 1 x
- Railing connection: 2 x
- Installation material: 1 x
- Assembly instructions and instructions for use: 1 x

Product configurator

Configuring, enquiring about and ordering individual products could not be easier with our product configurator for stairs, bridging steps and mobile platform stairs. Simply enter your required dimensions and versions step by step, and a rotating 3D model will appear in real time. To save your configuration and request a quotation requires a login which will be set up for you by our Sales team.

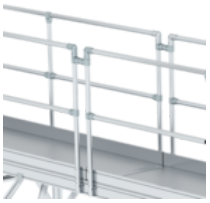

Modular kit system

- Individually and cost-efficiently combinable for the respective requirement
- Platform heights from 1.25 to 3.0 m
- Three different platform lengths can be selected

Safety railing

- Railings and handrails on both sides ensure a high level of safety at work
- Fixed size or telescopic safety door

Ascent

- Non-slip designs for secure footing
- All kinds of different materials can be selected with non-slip classes from R 9 to R 13 – suitable for the specific application purpose

Modular walkway systems

- For a wide range of indoor applications in production, warehouses, as access to machines, as a walkway along building walls or as practical access for de-icing commercial vehicles in the winter months
- Thanks to innovative modular construction, walkway systems can be assembled conveniently, cost-effectively and yet precisely to meet individual requirements
- The platform height of the walkway systems can be individually determined between 1.25 and 3.0 metres. The desired total length is achieved by way of combining three different walkway lengths
- The modules can be easily assembled using pre-assembled modules, securely connected to one another and fastened to the underlying surface using foot brackets
- The maintenance-free modules are manufactured as a stable, corrosion-resistant aluminium construction with a supporting frame.
- Maximum load: 1.5 kN / m², step load 150 kg, total load 300 kg
- Access to the walkway conveniently via stairs 45° with handrails on both sides and automatically closing safety door.
- The delivery from the factory is made in pre-assembled modules for quick and simple assembly in accordance with the enclosed assembly instructions

Note

When assembling a walkway, only modules with the same platform height can be combined. Please contact us if you need different platform heights on a walkway system. This also applies if you need walkway systems for outdoor use, as they are primarily designed for indoor use (with the exception of de-icing systems).
