

Order no.: 070899

'300 mm Extension' kit for mobile work platform with safety cage

Specification

Business division MUNK Günzburger Steigtechnik	Sector Commercial vehicles	Height fixed
--	-------------------------------	-----------------

Facts

- Four struts for easy installation and a rigid 300 mm raise of the platform
- Step and terrain kit for safe access at a new height

Description

Assembly Kit "300 mm Extension" for Mobile Work Platform with Safety Cage

The assembly kit "300 mm Extension" adapts the mobile work platform with safety cage for buses with greater body height. It raises the platform quickly and securely to the required working height.

Scope of Delivery

- Four column sections for straightforward installation
- Rigid platform height increase of 300 mm
- Access step for safe entry at the new height
- Railing set for fall protection at the new working height

Benefits

Quick Adaptation

The assembly kit attaches to the work platform simply and with minimal tooling. The 300 mm increase opens up use on buses with higher body structures.

Safe Access

The access step and railing set reliably secure the approach at the new working height – with no compromise on occupational safety.

Standards Compliance

The assembly kit is matched to the mobile work platform with safety cage and maintains its compliance with DIN EN ISO 14122:2016 and DGUV regulations.

Conclusion

The assembly kit "300 mm Extension" makes the work platform flexible for different bus types. Minimal installation effort, safe execution, and standards-compliant design ensure reliable use even at greater vehicle heights.

Information on sustainability criteria

- Corporate certification: ISO 9001
- Corporate certification: ISO 14001
- Corporate certification: EN 1090
- Corporate certification: EcoVadis
- RoHS
- REACH
- The MUNK Group complies with a Code of Conduct
- The Supply Chain Act does not apply due to our size
- The materials used are listed in the technical specification
- Resource-saving production: own photovoltaic systems
- Energy-efficient consumption during production: LED lighting
- Repairability, durability and quality: 15-year warranty on series products made in Germany

- **Recyclability:** Our products are mostly made of aluminium, steel or wood and can be fed directly into the recycling process.
- **Socially acceptable working conditions in production:** fair wages, gender equality
- **Economical and recyclable packaging:** no use of polystyrene, predominantly use of wood and cardboard, small amounts of plastic
- **No health hazards for the users**

Added value

Trust in us as your competent partner in the field of individual access equipment solutions. We are industry leaders from analysis to conception and design to first-class after-sales service.

★ Analysis

We set standards in the evaluation of access equipment requirements. Our experts take sufficient time to understand your specific needs. After a thorough analysis, we will present you with a tailor-made design that is perfectly tailored to your individual circumstances. Rely on us to identify your challenges and solve them in an innovative way.

★ Concept

We are leaders in the planning of special designs. With creativity, technical know-how and a deep understanding of access equipment, we develop pioneering concepts. Our experienced team designs outstanding solutions that meet the highest safety standards and maximise your efficiency and ergonomics. Let yourself be impressed by our competence and innovative strength.

★ Design

We set the bar high in design. Our engineers and production planners have unique specialist knowledge and many years of experience in the field of access equipment. With the latest technologies and high-quality materials we realise your concept down to the smallest detail. Precision and quality are the first priority – for your special designs that meet the highest demands.

★ Production

In our modern production halls at our headquarters in Günzburg, we can implement your planning and wishes professionally and efficiently. Our specialists in access equipment, electronics and mechanics always have only one thing in mind: Quality that delivers what it promises. That's why every design, whether large or small, is manufactured with the highest quality and precision and thoroughly tested before shipment.

From decades of experience, we know that individual requirements require special solutions. That's why we are here to help you realize your custom construction.

Get inspired by our reference products and make your unique idea a success. We look forward to supporting your project with our expertise and dedication. Contact our competent team for more information and assistance.

With MUNK Group by your side, your custom construction becomes a reality: Safety. Made in Germany.

What we offer

- On-site consultation and project planning
- Custom development according to your requirements
- Precision manufacturing
- Functional and cost-effective access solutions
- Maximum workplace safety
- Fast delivery
- Compliance with all relevant German, English, and international standards and regulations, such as BetrSichV, DGUV regulations, Machinery Directive 2006/42/EC

★ After sales

Our commitment does not end with the completion of the special design. We are unbeatable in after-sales service. With assembly, maintenance, testing and repairs, we ensure that your special design always remains in perfect condition. Our reliable team provides you with superior customer service and ensures that your satisfaction is first and foremost.
