

Order no.: 111217

Decal set for extension ladders / rope-extension ladders

suitable for

3-section extension ladders / rope-extension ladders

Scaling ladders

Specification

Business division
MUNK
Rettungstechnik

Order no.
111217

Facts

- The reflective strips on the ladder rails ensure that fire ladders are visible to road traffic even at night and in poor visibility conditions
- Retrofittable – A simple upgrade for existing fire service ladders without the need to buy new ones

Description

Greater safety. Greater visibility. Less risk.

The reflective strip kits for fire service ladders ensure that extension and telescopic ladders are clearly visible, even during night-time operations on public roads.

Reflective strips are attached to the sides of the ladder rails, making the ladder visible to other road users. Easy to retrofit, perfectly tailored – a real safety benefit for every fire service.

Information on sustainability criteria

- Corporate certification: ISO 9001
- Corporate certification: ISO 14001
- Corporate certification: EN 1090
- Corporate certification: EcoVadis
- RoHS
- REACH
- The MUNK Group complies with a Code of Conduct
- The Supply Chain Act does not apply due to our size
- The materials used are listed in the technical specification
- Resource-saving production: own photovoltaic systems
- Energy-efficient consumption during production: LED lighting
- Repairability, durability and quality: 15-year warranty on series products made in Germany
- Recyclability: Our products are mostly made of aluminium, steel or wood and can be fed directly into the recycling process.
- Socially acceptable working conditions in production: fair wages, gender equality
- Economical and recyclable packaging: no use of polystyrene, predominantly use of wood and cardboard, small amounts of plastic
- No health hazards for the users
