## Facts

- Reliably protects components and materials
- Requires customer-assembly
- Ideal for demanding industrial and craft environments
- Suitable for mobile work platform

## Description

Impact protection for work platforms – robust protection for everyday use

A work platform is often in constant use – whether in the workshop, in industry or on the construction site. That's exactly why there is impact protection for mobile work platforms.

The impact protection profile is attached to the edges of the platform. The impact protection is robust, easy to retrofit and suitable for mobile work platforms.

## Scope of supply

- impact protection: 1 x
