Added value

This product can be funded as part of the BG BAU work safety subsidies! Subsidy subject to conditions; for the latest information, please visit the homepage of BG BAU.

Our safety railing (SG) is a system-integrated side protection that minimises the risk of falling during assembly, conversion and dismantling, as well as when using working and protective scaffolding. With this technical protection you meet the highest safety standards and at the same time benefit from an attractive subsidy of up to 50% of the purchase costs (max. 100 euro per measure).

✔ For new mobile scaffolding: The safety railings are eligible as part of a complete working platform (including safety railings and frame parts).

✔ For existing scaffolding: Retrofits with compatible safety railings are possible.

All members of the BG BAU profit from this subsidy. This is intended to prevent accidents at work and improve ergonomics, especially on construction sites. All information from BG BAU can be found at:
www.bgbau.de/service/angebote/arbeitsschutzpraemien

A brief overview of the subsidy and an overview of our eligible products can be found on our website at Knowledge.
