

Order no.: 077533

Single-rail ladder galvanised steel

Length [mm]

1400

1960

2800

Specification

Length 1.4 m	Business division MUNK Günzburger Steigtechnik	Order no. 077533
-----------------	--	---------------------

Facts

- Fall protection rail welded to rungs
- Complete with connection straps
- Plastic side slip guard for steel ladders
- Welded-on side slip guard made of stainless steel for stainless steel ladders
- Aluminium side-slip protection screwed on at the side for aluminium ladders
- Ladder width: 370 mm for ladders made of aluminium and galvanised steel
- Ladder width: 400 mm for stainless steel ladders

Scope of supply

- Ladder: 1 x

Information on sustainability criteria

- Corporate certification: ISO 9001
- Corporate certification: ISO 14001
- Corporate certification: EN 1090
- Corporate certification: EcoVadis
- RoHS
- REACH
- The MUNK Group complies with a Code of Conduct
- The Supply Chain Act does not apply due to our size
- The materials used are listed in the technical specification
- Resource-saving production: own photovoltaic systems
- Energy-efficient consumption during production: LED lighting
- Repairability, durability and quality: 15-year warranty on series products made in Germany
- Recyclability: Our products are mostly made of aluminium, steel or wood and can be fed directly into the recycling process.
- Socially acceptable working conditions in production: fair wages, gender equality
- Economical and recyclable packaging: no use of polystyrene, predominantly use of wood and cardboard, small amounts of plastic
- No health hazards for the users

Added value

Rational modular principle

- Single-rail ladders with fall protection rail in various lengths offer the right solution for every project
- Each individual component in the modular kit system meets the same quality and efficiency requirements

Highest quality

- High-strength welded connection of fall protection rail and rungs
- Lateral side-slip protection on rungs for additional safety

Various material versions

- Single-rail ladders are available in steel, stainless steel or aluminium depending on the application
- Wall anchors and accessories are also available in several materials

Variant with folding rungs

- Ideal for use wherever the ladder is to be integrated as unobtrusively as possible
- The mechanism for folding in and out can be operated from above or below using a plug-on lever
- If the operating lever is removed, the ladder is also secured against unauthorised use
- Outer width with rungs folded out: 468 mm
- Outer width with rungs folded in: 160 mm
- Price on request
