Order no.: 166220

ML Standard mobile scaffolding, 0.75 × 1.80 m.

Platform height [mm]

2100 | 3300 | 4100 | 5200

Specification

Working height 4.1 m	Scaffolding length 1.91 m	Scaffolding width 957 mm	Scaffolding height 3.37 m	Platform width 750 mm
Platform length 1.8 m	Transport dimensions (plus packaging) 2200 x 800 x 750 mm, 67 kg	Indoor use, central installation possible & allowed	Indoor use, lateral installation not possible	Outdoor use, central installation possible & allowed
Outdoor use, lateral installation not possible	Ballasting of scaffolding, indoor, central installation 100 kg	Ballasting of scaffolding, outdoor, central installation 340 kg	Business division MUNK Günzburger Steigtechnik	Notice Accessories necessary to fulfil DIN EN 1004-1:2021
Platform height 2.1 m				

Facts

- Mobile scaffolding made of sturdy round aluminium tubing with welded frame parts
- All scaffolding parts are also available individually as spare or extension parts
- Four Ø 125 mm swivel castors with locking mechanisms
- Platforms with large trapdoor

We reserve the right to make technical changes and price changes.

- Aluminium toe boards and railing frames with integrated knee board as safety railing
- Installation and removal without tools from platform to platform thanks to push-fit connectors and quick-release fasteners
- Easy to handle thanks to individual lightweight parts
- Working heights up to 7.2 m
- Load class/scaffolding group 3: 2.0 kN/m²

Added value

Safety at heights

- Optional protective assembly railing as safety railing during installation and removal
- Installation without the need of tools, uncomplicated and easy to handle
- Railing with integrated knee board and aluminium toe boards

Safe standing

- Adjustable outriggers with swing base or chassis bar ensure safe working depending on model
- Easy to handle
- Additional ballast weights required depending on application

Highest quality

- User-friendly and robust design
- Low weight of the individual parts for easy handling
- Welded round tube frames for maximum stability
- All-round profiled rungs for safe ascent and descent

Modular kit system

- More than 180 variants are possible by combining different individual parts
- Flexible adaptations and extensions possible at any time
- Individual parts at the original part price
- Installation and removal without tools

Sturdy connection

- Automatically closing scaffolding claw with sophisticated geometry for a secure connection
- Innovative spring clip for plug-on frame – no accidental loosening or losing possible
- Transverse and diagonal braces for high stability

Everything at a glance

- Clip tray for clearly visible attachment of the necessary test documents to the scaffolding
- Weather and UV-resistant

Expand your scaffolding with a safety railing (SG) and ensure reliable protection at work thanks to the system-integrated side protection! The retrofit reduces the risk of falling and enables the BG BAU work safety subsidy to be paid for up to 50% of the purchase costs (max. 100 euro per measure).

✔ Suitable for this product: Compatible SG safety railings offer effective side protection and are easy to retrofit.

All members of the BG BAU profit from this subsidy. This is intended to prevent accidents at work and improve ergonomics, especially on construction sites. All information from BG BAU can be found at:
www.bgbau.de/service/angebote/arbeitsschutzpraemien

A brief overview of the subsidy and an overview of our eligible products can be found on our website at Knowledge.
