

Modular work platform bridging step module

Module type

Basic module 2nd step

3rd step

Bridging step module

Specification

Step/Platform surface Aluminium tibial plate	Non-slip class R10	Base area length 1 m	Base area width 560 mm	Design type rigid
Step width 555 mm	Step depth 250 mm	Max. load capacity 150 kg	Material Aluminium	Transport dimensions 1000 x 560 x 45 mm, 7.5 kg
Business division MUNK Günzburger Steigtechnik	Order no. 050415			

Facts

- Welded and torsion-free aluminium design
- 250 mm deep steps made of aluminium chequered plate for a secure footing
- Non-slip plastic shoes
- Optional extension of the basic module through additional modules for a larger standing area or
- Optional lifting castors for easily moving to new locations or floor mounting bracket for stationary use

 Can also be used as a walkway with access from both sides with a bridging step module

Maximum load: 150 kg

Scope of supply

■ Platform: 1 x

Instructions for use and operation: 1 x

Information on sustainability criteria

Corporate certification: ISO 9001

Corporate certification: ISO 14001

Corporate certification: EN 1090

Corporate certification: EcoVadis

RoHS

REACH

- The MUNK Group complies with a Code of Conduct
- The Supply Chain Act does not apply due to our size
- The materials used are listed in the technical specification
- Resource-saving production: own photovoltaic systems
- Energy-efficient consumption during production: LED lighting
- Repairability, durability and quality: 15-year warranty on series products made in Germany
- Recyclability: Our products are mostly made of aluminium, steel or wood and can be fed directly into the recycling process.
- Socially acceptable working conditions in production: fair wages, gender equality
- Economical and recyclable packaging: no use of polystyrene, predominantly use of wood and cardboard, small amounts of plastic
- No health hazards for the users

Added value

Safe working

- Handrails for safe ascent and descent
- Large-format, non-slip platforms
- Sturdy designs for secure stance

Variant diversity

- Step stools with basic constructions made of aluminium rectangular tube slide-rails or steel round tube
- Welded and bolted versions
- Various step and platform designs

Non-slip plastic shoes

- Ensure secure stance
- High impact and abrasion resistance
- Simple replacement in the event of wear

Industrial grade

- Robust design for demanding applications
- Use of high-quality and high-strength materials

From small to large

- The right product for every application
- One-sided and two-sided variants

Added ergonomics

- Integrated or retrofittable castors for easy movement from place to place
- Handles for ergonomic handling
- Foldable products for easy transport
