SafeCaddy® "First Aid" with loading: Your reliable and versatile mobile safety system for optimal first aid and first aid protection. Our high-quality transport solution made of anodised aluminium offers you the innovative plus in every safety concept.

With its eye-catching design, the SafeCaddy® "First Aid" is immediately recognisable as a rescue aid. Whether in the hustle and bustle of an emergency or for the rapid provision of aid, this mobile solution is your trusted companion.

The large mesh basket allows direct access to your important aids. With a storage compartment for directly accessible aids and a closed material box for additional aids and rescue equipment, the SafeCaddy® offers enough space for your needs. And the best thing is: an aluminium box for individual equipment is already included in the scope of delivery!

The SafeCaddy® offers you not only optimum functionality but also maximum comfort. The comfortable, rubberised push handle allows easy and ergonomic operation by one person. Thanks to the puncture-proof wide wheels made of polyurethane (PU) with roller bearings, you are always ready for action, even after standing for a long time. The 4 support feet ensure a stable stand and take the strain off the wheels.

Your safety is our top priority. The SafeCaddy® has integrated lashing points to ensure safe transport. So you can be sure that your equipment will arrive at its destination reliably and protected.

The SafeCaddy® "First Aid" with load comes with the state-of-the-art Stryker LIFEPAK® CR2 defibrillator equipped with the LIFELINKcentral™ AED ProgramManager. You will also receive the GRAMM first aid kit in the large version, filled in accordance with DIN 13 169:2021-11.

Do not hesitate and invest in the safety of your team and your fellow human beings. The SafeCaddy® "First Aid" with load is the optimal choice for effective and reliable first aid coverage.
