Description

A practical accessory for every SafeCaddy® model is our high-quality tarpaulin made of polyester fabric coated on both sides with PVC. It is temperature-resistant from -30°C to +70°C and thus withstands all external influences and reliably protects your rescue and auxiliary equipment from water, dust and dirt. At the same time, the protective cover is equipped with three large viewing windows that allow you to quickly and easily identify the required tools.

In addition, the protective cover has a closable cut-out that enables you to operate the push handle of the SafeCaddy® without removing the tarpaulin. Quick and convenient access to the contents of

your SafeCaddy® is provided by the four easy-to-use zips located in the corners. They are easy to operate even when wearing gloves.

An indispensable plus for your SafeCaddy® in rough environments: Protect the trolley and equipment with the tailor-made cover!

Scope of supply

- Tarpaulin / Hood: 1 x
